

STATION OPERATOR – AUSTIN, PA

National Fuel is currently seeking a **Field Operator** for an outstanding career opportunity in our **Operations** department at our **East Fork Station** located in Austin, PA. As a member of the National Fuel team, you will enjoy an exciting and challenging work environment where top performance is recognized and rewarded.

The ideal candidate will be self-motivated, have a proven track record of good attendance, and committed to work place safety. The typical work schedule for this position is Monday through Friday from 8:00 AM – 4:30 PM and could include some overtime. Candidates must possess a valid driver's license with a clean driving record and the ability to drive a small company truck or van. **Applicants must live within a 20 – mile radius of the East Fork Station located at 130 National Fuel Gas Drive Austin, PA 16720 or be willing to relocate.**

PRIMARY RESPONSIBILITIES:

- Operation, maintenance, and routine repairs to gas compressor stations and natural gas power engines
- Recording pressures, flows, and temperatures
- Identify and react to abnormal operation conditions in engine and pipeline facilities.
- Operate gas dehydration systems, odorizers, radios, flow controllers, and pressure regulation equipment.
- Other varied gas field activities including storage well operations and maintenance.

MINIMUM QUALIFICATIONS:

- High school diploma or equivalent
- Valid driver's license
- Comfortable working in and around high pressure pipeline facilities, large engines, and gas compressors
- Excellent customer service/communication skills
- Basic literacy is required. Ability to read, legibly prepare written documentation and have the ability to accurately interpret and analyze written information
- Basic computer skills needed
- The physical capability to work outdoors in all types of weather and the ability to work in and around hazards and difficult to reach areas

PREFERRED QUALIFICATIONS:

- Prior experience in the installation, repair, and troubleshooting of pneumatic and electrical equipment.
- Ability to read flow schematics and isometric drawings.
- Strong mechanical aptitude
- Self-motivated
