

SENIOR LEAD OPERATIONS ELECTRICAL SUPERVISOR – WESTERN NEW YORK

National Fuel is currently seeking a **Senior Lead Operations Electrical Supervisor** for an outstanding career opportunity within our Compression Operations team at one of our Western New York locations. *Locations within our Pennsylvania territory will also be considered.* As a member of the National Fuel team, you will enjoy an exciting and challenging work environment where top performance is recognized and rewarded.

PRIMARY RESPONSIBILITIES:

- Manage the Electrical Foremen that oversee the Electrical Technicians that maintain the operations of the Company electrical, automation, and communication equipment.
- Provide support in a Subject Matter Expert role by gathering & interpreting electrical, automation and communication data, troubleshooting problematic electrical components, providing support and work with Station & Maintenance Foremen to solve problems, making recommendations and improving system reliability.
- Lead Electrical Operations program improvement initiatives and manage the groups work assignments and projects.
- Oversee the Electrical Operations mandated inspection programs.
- Oversee all electrical training programs for the Electrical Operations personnel.
- Coordinate and oversee electrical project work with the Electrical Engineering Department for design, construction, and commissioning activities.
- Coordinate the Electrical Operations work involved with other Company departments and 3rd Party contractors/vendors.
- Assist with O&M and Capital budget creation and tracking.
- Complete various special projects and assignments as directed.

MINIMUM QUALIFICATIONS:

- Associate's Degree in an electrical technical field or equivalent experience in related field.
- Demonstrated electrical aptitude, including a working knowledge of electrical, automation, communication, controls and telecommunication equipment.
- Ability to troubleshoot all types of electrical equipment, auxiliary and ancillary equipment systems.
- Ability to read and interpret design drawings and technical manuals.
- Demonstrated experience and thorough working knowledge of NFPA National Electric Code (NEC).
- Demonstrated knowledge of mechanical systems, engines, and compressors is a plus.
- Exceptional analytical, communication, problem solving, and organizational skills.
- Working knowledge and skills in Microsoft Word, Excel, PowerPoint, and Outlook.
- Good people skills and prior Supervisory experience.

PREFERRED QUALIFICATIONS:

- Bachelor's degree in Electrical Engineering, Electrical Technology or related technical degree is desirable.
- Prior electrical work experience of at least 5 years. Greater experience would be a plus.
- Formal training in electrical, automation, communication and controls is a plus.
- Reporting locations will be considered in both New York and Pennsylvania.
