

ENVIRONMENTAL ENGINEER (AIR QUALITY) – WILLIAMSVILLE, NY

National Fuel is currently seeking an **Environmental Engineer** for an outstanding career opportunity in our **Engineering Services** department located at our corporate Headquarters in Williamsville, NY. As a member of the National Fuel team, you will enjoy an exciting and challenging work environment where top performance is recognized and rewarded.

PRIMARY RESPONSIBILITIES:

- Administer the requirements of the Clean Air Act, Greenhouse Gas Reporting Program, and Voluntary Greenhouse Gas Reporting Programs
- Interpretation of EPA and State air quality/environmental regulations, equipment specifications and performance standards, and the development and maintenance of air quality emission reports
- Provide guidance and support to multiple engineering and operations project team members on a broad range of project planning and permitting, construction, equipment retrofitting and commissioning activities
- Lead and facilitate agency and internal compliance inspections and audits
- Manage and direct consultants performing air quality, air permitting and greenhouse gas services
- Oversee and administer environmental compliance education and training of company personnel
- Manage and oversee air quality/environmental compliance with regulatory agencies such as FERC, EPA, NYSDEC, and PADEP

MINIMUM QUALIFICATIONS:

- Bachelor's degree in civil, environmental or related engineering field, forestry, biology, or physical sciences
- Ability to interpret and apply air quality/environmental regulatory orders, standards and published plans & procedures for natural gas pipeline systems
- Application of construction codes and specifications, and of environmental, cultural and biological principles and practices
- Prior experience scoping, estimating, competitive bidding, and cost control
- Demonstrated time management, organizational skills and multi-tasking abilities
- Exceptional oral and written communication skills, proven critical thinking and problem solving skills and strong computer skills including Word, Excel, and MS Project
- Ability to work independently as well as within a multidisciplinary team environment

PREFERRED QUALIFICATIONS:

- Knowledge of FERC, NY & PA state environmental regulations
- Prior experience working with regulatory agencies, equipment manufacturers, and/or knowledge of chemistry, combustion equipment, air quality regulations, EMIS systems, codes and standards and facility construction
